

SVE Truck Attachments

Svetruck began in the year 1977, designing a service friendly, durable and reliable lift truck. When they started that year the company had a clear idea of the kind of business they wanted to be and the types of products they wanted to create. Svetruck specializes in making lift trucks that enable the person operating it to be able to work well within difficult environments. Svetruck believes that being capable of performing safe and successful material handling in the best way possible really helps so as to contribute to a constructive working atmosphere.

Home to their manufacturing facility in Ljungby, they produce machinery like container handlers, forklifts and log-stackers. To this date Svetruck is proudly supplying forklifts and different forklifts to all of their worldwide clients.

Focused on the future, Svetruck remains fully dedicated to safeguarding their outstanding status of producers of durable and reliable lift trucks. Their fundamental method to solid experience, high quality and more than 30 years of expertise in the subject, means they could provide people exceptional solutions for all their material handling needs.
