

## TCM Forklift Attachments

In the global industry of material handling, lift trucks play a major part for transporting industrial goods. Primarily innovated as industrial vehicles during the 1930s in the United States, forklifts gained recognition following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM started building forklift manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With more than fifty years of accumulated technology and expertise, TCM has been proudly manufacturing various models of industrial lift trucks, making their models known all over the world. With a strong and energetic employees, TCM has been able to continually work towards becoming a future leading material handling business.
