Clark Totalift has a very amazing worldwide support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the particularly economical and beneficial structure of "Lean Production" for its assembly facilities and use of resources. This structure was established to acknowledge the most successful approaches of production facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the effectiveness and excellence of their products while minimizing expenses. The contemporary value engineering program combines modern product improvement and delivers superior customer support and service within the industry.
